# THE HABITAT PENANG HILL

*Your Rainforest Experience Awaits*

**The Habitat Penang Hill** offers the most authentic, diverse and educational rainforest experience in Malaysia. Our world class rainforest discovery centre sits on the fringes of a forest reserve protected since 1911 and consists of a 1.6km nature trail that was built by the British East India Company in the early 1800s.

Apart from the myriad of flora and fauna that are discoverable along our trail, you will enjoy breathtaking views of Penang and its surrounding areas atop the 13-meter high Curtis Crest Tree Top Walk, the highest public viewing point on Penang Island, 800-meters above sea-level.

Our park also features Langur Way Canopy Walk, the longest two-span stressed ribbon bridge in the world and the only one that sits within a pristine rainforest.

By reconnecting our visitors to nature, we hope to inspire them to make choices for a sustainable future and to help cultivate a sense of appreciation and respect for the delicate and diverse ecosystems that we are striving to protect.

Your visit helps fund efforts to safeguard biodiversity and protect our natural environment in close collaboration with like minded partners in Penang and beyond. Find out more about our conservation efforts at [habitatfoundation.org.my](http://habitatfoundation.org.my).

Enjoy a range of wholesome edibles and artisanal beverages at our rainforest inspired Eco Deli.
